

XP195

XP195 hard scale treatment system and replacement cartridge

Benefit

- Longer life cartridge
- Remove/ reduce scale formation
- Remove chlorine, taste, and odour
- Sanitary quick change cartridge for easy of replacing filter
- Auto water shut off - no need to turn off the water supply
- 3/8" female inlet and outlet for better flow rate connection

Watermark certified XP195 specifically made to help reduce limescale and harmful contaminants which affect water quality of the beverage.

Hard scale can cause scale formation on the heating element and results in energy inefficiency, system down time and expensive service all out.

Suitable for the following appliances

- Coffee and Espresso Machines
- Hot drink vending machines
- Combi steamers and self-cooking systems
- Steam cookers and ovens
- Brewed Iced Tea

Incoming water hardness (PPM)	Cartridge capacity (Litres)
110	6200
140	4800
180	3800
210	3200
250	2700
280	2400
320	2130

Max. handling pressure is 800kPa. Inlet and outlet connections are 3/8" FNPT female. Maximum operating temperature is 38°C.

Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system. Filters should be changed every six months or earlier for higher water usage application.
