

## ABXOLUT AX5-TS

Sediment, Scale, Taste and Odour Reduction

**AbXolut  
ONE  
DESIGN**

The AXF5-TS is a triple action filter system which removes dirt and particles, will improve taste and odour, remove chlorine and also reduce scale build up.

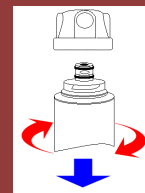

This is the perfect filtration system for use in coffee machines with low volume usage and with low level hardness and low level of chlorides in the mains water.

### Specification

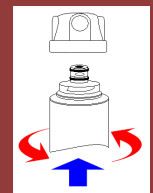

Flow Rate: 7.5 L/min  
Capacity: 25,000 litres  
Micron Rate: 5  
Ports (inlet/outlet): 15mm  
Max. Temperature: 38°C  
Min. Pressure: 172 kPa

Dimension: 80 mm (dia) x 300 mm (H)

Quick & easy to  
replace the cartridge

Turn anti-clockwise  
and pull downward

Push up and  
turn clockwise  
until stop

### Filter Replacement Instructions

1. Shut off the water supply
2. Release the water pressure
3. Grasp existing filter and remove by rotating left until it stops, then pull down releasing it from the filter head
4. Align replacement filter guide channels with the corresponding posts of the filter head
5. Insert the filter upward until it fully seats into the head, then rotate right until it stops
6. Flush the system for 5 minutes before use
