

Carbon Block Filter Cartridges

Xsential Carbon Block Filter Cartridges remove chlorine, organics, VOC's (volatile organic compounds) colour, objectionable tastes and odours from water. Our filter cartridges can be used with most standard filter housings and as replacements in existing systems or assemblies.

They are an ideal choice for a wide range of residential, food service, commercial, and industrial applications. They also make excellent polishing filters or pre-filters in applications requiring fine filtration and high capacity.

Features:

- Reduces or removes chlorine, organics, VOC's (volatile organic compounds), taste, odours and sediment.
- 5/10 micron filtration
- Little or no release of carbon fines
- Carbon made from environmentally friendly Coconut Shells produce healthier, better-tasting drinking water
- When the cartridge is finished you can remove and compost the carbon media
- CBC type filters have the highest flow rates of carbon filters
