

## LB Three Way Tap

The LB Three Way Mixer Tap combines modern contemporary styling with engineering excellence.

This high quality tap is an ideal function/system for undersink filtration systems. It allows not only the delivery of tap water, but also the delivery of filtered drinking water through the same tap. It's intuitive levers allow for control without confusion.

This tap is suitable for both vented and unvented water systems. There is no need for additional drilling. There is an extra hole that is provided for your chosen faucet.

### Description

- \*Tri-flow faucet (Hot/Cold and filter water)
- \*Filtered water is delivered via an independent tube to avoid mixing with tap water
- \*Options with 3/8" and 1/2" steel-wire-braided connection hoses
- \*The connecting hose is 1.5 feet long, also available in longer models
- \*Low lead brass material
- \*Water Mark (DR brass material)
