## *REVERSE OSMOSIS SYSTEMS*

**THE SOURCE OF WATER FOR DRINKING,  
PROTECTING YOUR COFFEE MACHINE AND MORE...**

**PRO-Q5 under-counter** reverse osmosis water filtration system are highly effective water filtration systems that is available on the market. Unlike other reverse osmosis systems, PRO-Q5 is sleek and compact and is designed for contemporary kitchens. It is easy and convenient to use and provides delicious water right in your kitchen.

PRO-Q5 Water Filtration System gives you peace of mind by letting you control the quality of the water for your cup of coffee. Xsential's technologically advanced filtration capability does not allow many molecules to pass through the pores of the RO membrane and any dissolved mineral molecules which are too large to penetrate the pores are flushed down the drain.

**PURIFICATION PROCESSES/ FILTER SPECIFICATIONS:**

Removes Arsenic, Barium, Cadmium, Copper, Chromium (hexavalent), Chromium (trivalent), Copper, Cysts, Turbidity, Fluoride, Lead, Radium 226/228, Selenium, and more (up to 96% of the impurities).

**NO OTHER WATER PURIFICATION SYSTEM COMPARES**

- DISTINCTIVE** - Design which is built to last.
- EFFICIENT** - Ready for drinking, cooking, making formula, coffee and tea as needed.
- COMPACT** - High capacity and compact to fit any kitchen/tea room.
- HEALTHY** - Drink the best water to be healthy.
- HYGIENIC** - Easy to change filter cartridge, no fuss, no mess.
