

XZ937

The XZ937 is a 5-micron scale inhibitor filter cartridge designed to reduce scale-related issues in both commercial and residential settings. It is ideal for use with kitchen equipment, coffee machines, and ice machines, helping to protect appliances from scale build-up and extend their lifespan.

Reduces :

- Chlorine
- Unpleasant taste and odour
- Sediment
- Scale formation

Working pressure	100 - 800kPa
Temperature	5-38°C
Flow rate	5 L/min
Micron rating	5

Filter Replacement Instructions

1. Shut off the water supply.
2. Release any water pressure from the system.
3. Remove the existing filter:
 - Grasp the filter firmly.
 - Rotate it to the left until it stops.
 - Pull down to release it from the filter head.
4. Install the new filter:
 - Align the guide channels on the replacement filter with the posts on the filter head.
 - Insert the filter upward until it fully seats.
 - Rotate it to the right until it stops.
5. Flush the system for 10 minutes before use.

Compatible with ZIP:

93701, 93702, 93703

Caution:

Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system. To protect your system and ensure long-lasting performance, always install a pressure limiting valve. Regular scheduled maintenance is strongly recommended. Xsential is not liable for system failures resulting from improper maintenance.
